EXPERIENCE

News Applications Developer
THE ATLANTA JOURNAL-CONSTITUTION, AUG '13-PRESENT
Researched, designed and developed data visualizations, interactive graphics, immersive multimedia-driven stories and other news applications for both the AJC's free website and its MyAJC premium paywall site for subscribers. Also developed internal newsroom tools for reporters and producers, as well as tools for the news apps team's development process.

Director of Design/Technology
REESE NEWS LAB, AUG '12-MAY '13**
Led design and development team for entreprenurial news lab at UNC-Chapel Hill's journalism school. Built interactive graphics and data visualizations for news lab hosted sites exploring issues related to North Carolina politics and STEM education.
** Was also an interactive designer from Oct '11-May '12

Interactive Graphics Intern
THE ATLANTA JOURNAL-CONSTITUTION, JUNE '12-AUG '12
Designed and developed interactive graphics and data visualizations on the digital team for AJC.com. Worked with investigative reporters and data editors to help them enhance their stories with visuals.
